

DCUBE

DATA DRIVEN DECISIONS

The #1 most automated services solutions company in the compliance analytics, cyber notification and information governance space.

Managed Document Review Services

Dcube has hundreds of trained document reviewers located on and offshore who are each well versed in predictive coding, technology assisted review and eDiscovery analytics.

These review services are inclusive of PII / PHI / PFI reviews and legal reviews.

We have some of the most rigorous quality control standards in the industry and those extend throughout our managed document review services.

Our review team has tremendous experience with document review projects literally around the world.

While we have tried and trusted workflows, we are always willing to customize workflows to meet specific client demands.
